Günther Ohland,
President of the Smart Home
Initiative Deutschland e.V.

VISIT THE SMARTHOME COMPETENCE CENTER OF SMARTHOME INITIATIVE GERMANY E.V. IN HALL 11.1

As SmartHome Initiative Deutschland e.V. we are not market players ourselves – our role is rather to foster the idea of SmartHome. SmartHome Initiative Deutschland e.V. sees itself as a cross-sector association in Germany. In order to enlarge the opportunities for a presence on SmartHome trade shows and platforms, our Board of Directors resolved to organize its presence at fairs professionally in co-operation with Global Fairs TT-Messe as a well-connected exhibition agency.

SmartHome has reached the mass market. Increasingly more consumers want to use smart products to increase the security of their homes, improve comfort and, of course, also save energy. Systems for professional installers and products for self-installations are competing with each other on the one hand – yet on the other hand they complement each other. Which existing products can be upgraded? Which systems are interoperable? The shared stand of SmartHome Initiative Deutschland e.V. is located in this area of interesting interplay and provides information for consumers, craftsmen, planners and specialist retailers to an equal extent.

Günther Ohland

President of
SmartHome Initiative Deutschland e.V.

HALL 11.1

GLOBAL FAIRS
TT-MESSE.DE

Jan Nintemann
Owner and MD of Global Fairs
TT-Messe Osnabrück, Germany

70 international manufacturers and distributors invite you to visit: 20 YEARS OF GROWTH - RESELLER PARK IS LARGER THAN EVER BEFORE - AT OVER 2,700M² IT NOW HAS ITS OWN HALL (11.1 - LOCATED NEAR THE iZONE)

A 20-year success story: Since 1997 our specialised B2B exhibition agency has implemented 50 trade fair projects with some 1,000 exhibitors. Part of this history - in addition to many specialist distributors such as Brodos, ENO Telecom, Herweck, Komsa and Michael Telecom as well as numerous B and C brands such as AEG, Lenco, Audioline, Doro and Polaroid - also included large brands such as Amazon, AVM, HP, Huawei, Logitech, Microsoft and Western Digital.

It has been a long journey involving continual improvement and further development of our A-Z full service packages and the integration of new product areas and providers from all over the world, who have found themselves exhibiting - without risk and with a manageable amount of effort - at an always highly-frequented and internationally-renowned market place at every trade fair. Personal networking is everything in these times of momentous change!

The SmartHome and Reseller Park hall 11.1 - more than ever before - is not to be missed by trade visitors from around the world. Divided into 3 theme worlds in a 4-block layout, you will initially reach (when entering from hall 10) the shared stand of SmartHome Initiative Deutschland e.V. (including KNX as the most significant union of the Smart Building industry in the world). This is followed by 2 large Reseller Park blocks featuring the two central clearing areas in the middle of the hall - an extremely innovative treasure trove of the latest technologies and trade offers (CE, HA, mobile, accessories). The final platform presents the IPT marketplace - a popular meeting point for international traders and distributors. The top-class B2B programme is supplemented by the exciting ISP and NewTechBrandsZone project, located 8 km away at STATION-Berlin. So once again it really is worth a visit to **Berlin, the IFA, IFA GLOBAL MARKETS (STATION-Berlin) and the Reseller Park in Hall 11.1...**

WE LOOK FORWARD TO WELCOMING YOU!

IFA GLOBAL MARKETS EXPERT TALKS

Sunday	11:00 - 17:20
Monday	11:00 - 19:00
Tuesday	11:00 - 17:20
Wednesday	11:00 - 12:00

STATION-Berlin SYMPOSIUM

IT'S CHANGE THAT DEFINES US

In a market famous for its constant change, trade show organizers such as Messe Berlin have to keep IFA moving with the flow of technology. Global Fairs/TT-Messe plays a vital role in bringing both buyers and sellers to IFA to keep up with technology.

The RESELLER PARK in Hall 11.1, a platform we've backed for all its 20+ years, is now an impressive must-visit collection of 70 manufacturers and distributors bringing in true innovations as well as traditional products.

At IFA, what today could be more important than the future of SMART HOME? This, with the addition of IoT, is one of the most exciting areas for retailers, etailers and installers. And what better partner for this SMART HOME area could Global Fairs/TT-Messe pick other than the Smart Home Initiative?

Meanwhile at IFA GLOBAL MARKETS, we will also support Global Fairs/TT-Messe's ISP@IFA GLOBAL MARKETS, an international suppliers park – as part of our response to the growing demand from distributors, retailers and etailers for private and white label sources. And, of course, for the underlying technology providers that fuel OEM/ODM – from chips to sensors to displays to software and more.

IFA GLOBAL MARKETS runs between September 2nd - 5th at STATION BERLIN.

I will be there on stage in the SYMPOSIUM room, as moderator of the EXPERT TALKS @ IFA GLOBAL MARKET. Some of Europe's top experts in distribution and sourcing will join me on stage there. Drop by and join in the conversation.

IFA 2018 promises more products, more technology and more executive insight than ever before.

And that's an example of the positive industry change that also defines how we work with Global Fairs/TT-Messe to bring more value to our audience both online and on the fair grounds.

Hall S8 Booth No.133

"Each day Sept 2nd-5th has its own "big talk" depending upon what technology or service you are interested in," says Content Chairman, Bob Snyder. "For example, somebody might be interested in CE-Marking. Or a buyer might need to know How to Find, Sign and Motivate Chinese Suppliers...we have an excellent panel on that.

"And we have two blockbuster Keynote sessions on Sept. 4th which will draw major attention. "We have a Fireside Chat with Peter Wiggers, the Managing Director of B&S Retail which own the CAPI stores... They have 25 shops in five countries that offer a portfolio of electronics aimed at the traveler - those cool gadget shops for travelers that you see even here in the Berlin airport. This is a vital retail segment that has been so overlooked... 260 million travelers worldwide have access to CAPI shops... it's the front line of tech innovation where you can introduce new products to business executives or family travelers. "I am very excited about this. It's the first time this critical market segment appears on stage at IFA."

[Photo] Peter Wiggers, Managing Director, B&S Retail (CAPI)

[Photo] Klaus-Peter Voigt, Managing Director, Chief Procurement Officer

"The other session that can get people excited - it's the Special Address by Klaus-Peter Voigt, Chief Procurement Officer, MediaMarktSaturn Retail Group. "He's followed by a panel on the European Retail Alliance which was founded recently by MediaMarkt-Saturn and FNAC/Darty. And they're looking for more retail partners to join in their alliance. "There are more good speakers...you know how important Voice Control is...we

have Joshua Montgomery from Mycroft flying in from USA... and Connie Hwong, Verto Analytics on a panel. Anouk Groen is back with her Trend Forecast report: a very fascinating and inspiring talk on world design trends. What's in, what's out... Smart Home is a real driver for retailers right now. Adam Simon, one of the top researchers in all of Europe will join Peter Kiss from Conrad Connect and Magnus Michael from CSI. Then Pierre Brunswick, Chairman, Neuromem Technologies will rock the room on how AI will change everything for this industry. He's an excellent speaker. And Nick Graves on what's happening the trillion-dollar Apple ecosystem... "I could go on and on. There are many "Big Talks" this year.

"We should also mention the new EXPERTS RECEPTION on Sept. 4th. It's a chance to meet all these important speakers and Europe's only reception for white label managers, ODM/OEM buyers, and sourcing executives. For an invite, people can contact me."

THANKS TO OUR PROMOTION & MEDIA PARTNERS

FOR OUR PROJECTS AT

THANK YOU!

DEAR CO-EXHIBITORS AND VISITORS, THANK YOU FOR PARTICIPATING AND NETWORKING DURING IFA 2018! SEE YOU ON OUR NEXT EVENT ...

GLOBAL FAIRS
TT-MESSE.DE
(organiser)

 Messe Berlin

DEALERS ONLY

Telecom Handel

IF YOU ARE INTERESTED IN

- a stand on ICP@CEBIT or Center of Smart Building 2019
- a stand on Reseller Park, ISP or New Tech Brands Zone at IFA Berlin 2019

PLEASE DON'T WAIT TO CONTACT US BECAUSE OF:

- preferred stand position
- early booking discount
